

## Message From The Director

What is significant in March, the list is probably long; however, from a literary standpoint William Shakespeare made famous: "Beware the ides of March" which is found in the play Julius Caesar. The Shakespearian play dramatized and recalled the plot and subsequent assassination of Caesar in 44 b.c., the 74th day on the Roman Calendar, which was a matter of historical record. History did contain the characters, events, and references that Shakespeare popularized and made memorable. The Roman calendar was based on lunar cycles, ides were regular and common just like full moons.

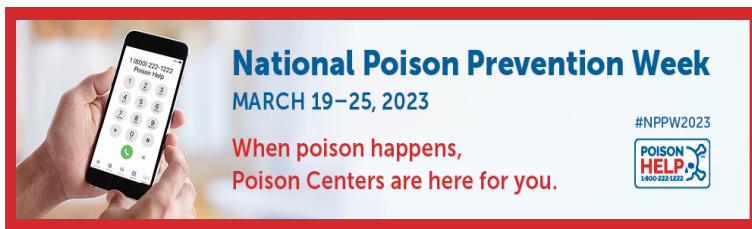

The ides marked things like debts being due, festivals, feasts, celebrations, holidays, and other items. The ides marked the passage of time, and were just a normal day on the cadence of the calendar. Due to lunar cycles the ides of March, May, July, and October always fall on the 15th of the month. Prior to the assassination of Julius Caesar, what made the ides of March unique in Rome was the noted end of the celebrations signifying the passage of the new year and looking toward spring. However, with the assassination of Julius Caesar the day marked something to be wary of, and proved a turning point in Roman culture and civilization.

"Beware the ides of March", and "Friday the 13th" can both denote and foreshadow something bad as a parlance of speech. Although today we may not hold to some of these superstitions. Shakespeare had the ability to make history come to life, and hold the interest of people in tragedy or comedy. We have the works of William Shakespeare, and the works of those who have been inspired by Shakespeare in their commentary, literary criticism, or background.

The library helps us learn about the events, beliefs, and influences of the past. Every day at the Washington County Library we provide: New and Best Sellers, Classics, Audio Visual, Electronic Resources, Print and Non-print material, and so much more just waiting to be discovered. This all takes work and money to make it a reality, to be impactful and meaningful. We have so much to offer our patrons and work hard to provide resources or materials patrons can use to educate, entertain, engage, and inspire their lives.

**National Poison Prevention Week**  
MARCH 19–25, 2023

When poison happens,  
Poison Centers are here for you.

#NPPW2023  
POISON HELP  
1-800-222-1222

National Poison Prevention week (NPPW) is March 19-25, 2023. NPPW was established in 1961 to call attention to the dangers of poisonings and provide information on tips and strategies to prevent poison exposure. Safety interventions, such as child resistant closures and poison prevention campaigns, have saved thousands of lives. Poisonings can happen at any age and all people can benefit from poisoning prevention education.

Why is poisoning prevention important? Poisons pose a threat of widespread danger - about 30 children die every year from common household items. In fact, every 8 seconds someone needs a poison control center. The most common products involved in poisoning are: cosmetics and personal care items, drugs, both prescription and over the counter, cleaning products, and plants.

Since 1954, the Utah Poison Control Center (UPPC) has responded to more than 2 million calls. The UPPC receives about 40,000 calls each year, and approximately 60% of those calls involve children under the age of six. The UPPC is able to assist 75% of poison exposures over the phone without sending the patient to a health care facility, which saves time and money.

If you find yourself in a situation where you need assistance, call 1-800-222-1222 for immediate assistance. If you want to learn more about what you can do to prevent poisoning, go to [utahpoisoncontrol.org](http://utahpoisoncontrol.org) for educational resources.

We know all about shamrocks, horseshoes, and rabbits' feet, and their supposed luck-granting properties. And, to be perfectly frank, they leave a little something to be desired. For instance, once this author took a genuine four-leaf clover to her high school's football game, but her team still lost miserably. (She is still sorely disappointed.) We here at the library think it's high time a new good luck charm was instituted, such as, perhaps, DVDs from our collection. Here are some recently added DVDs you could try for luck:

#### MOVIES

- Big Sky River
- Black Panther:  
Wakanda Forever
- Nothing Is Impossible
- Love in the Limelight
- Fabelmans

#### TELEVISION

- Split - Season 3
- Star Trek: Prodigy - Season 1
- City On A Hill - Season 3
- Empire - Season 6
- Man Who Fell to Earth -  
Season 1

Good luck doesn't have to cost you a fortune; DVDs are FREE to borrow with your Washington County Library Card. So the next time you find yourself in need of a little luck, come on down to the library to borrow a DVD. And hey—if it doesn't work for luck, you can still enjoy a great show.

## Employee Spotlight

It is with pleasure that we introduce Nancy Bentley, as the Washington County Library System employee spotlight for February 2023. Nancy has been a great addition to the library staff in New Harmony.

When she first moved into the New Harmony Valley she brought in her Golden Retriever, Baxter, and offered him up to read with our younger patrons. Of course, we took her up on the offer and the rest is history.

She started working as a part-time clerk before Christmas in 2021. Nancy has many great qualities but number one is that she keeps the rest of us on task. If we mention something that needs doing, she either does it immediately or keeps on the rest of the staff until we get it done.

She has years of experience working with communities in Utah and has connections all over the state. Patrons love her and she has a great following amongst town members. She genuinely shows interest in patrons and enjoys helping them at the library. Her skills and knowledge are an asset to the library. Always reliable and ready to crack a joke, we really appreciate her. She makes working in New Harmony fun.
